

Maths

This term, we are beginning by looking at weight and mass. We will then move onto multiplication, starting by looking at counting in 2s, 5s, and 10s. We will then move onto telling the time, money and numbers up to 100.

Geography

In Geography, we will be looking at maps and why they are used. Children will be following simple maps and drawing their own maps of the classroom and local area. They will also learn the basic 4 points on a compass.

PHSE

In PHSE this term, we will be looking at growing and changing and how the needs of people change as they get older. We will also be looking at naming body parts including external genitalia. We will also be looking at bullying and hurtful behaviour. We will consider how this might be in the form of physical and verbal bullying and also introduce how this may occur online.

ICT

This term, the children will learn about coding. They will learn to give clear step by step instructions to create an algorithm. They will then test their coding and debug where necessary.

PE

This term, our focus will be on athletics and dance. In particular we will be focussing on running, jumping for distance and height and throwing, In dance, we will focus on space, communication and dynamics.

English

In English, we will be looking initially at the book 'The Dragon Machine'. We will use it as inspiration for our writing continuing to focus on the grammar and punctuation for Year 1. Later in the term, we will be looking at traditional tales for example 'The Three little Pigs'.

Tales and Scales

History

In History, we will be learning about and comparing the lives and reigns of Queen Victoria and Queen Elizabeth II. We will look at the timeline and significant events during their reigns. We will also compare how life was for people during each of their reigns.

Art

In Art, we will be looking at sculpture. We will be using birds as our inspiration and making our own 3D sculptures. We will also be looking at the work of several artists to help inspire our work.

Science

In Science, we will be learning about materials. We will look at what different materials there are and the properties of different materials. We will be looking at the best material to make the three little pigs house and also what materials help keep us dry. There will be a focus on investigation with children asking questions and considering ways to answer them.

RE

In RE, we will be looking at community. We will find out about different celebrations in different faiths. We will also find out how different faiths express their beliefs.

DT

This term, we will be looking at puppets in particular glove puppets. We will be looking at various methods of joining materials and will be learning to do a basic running stitch. We will then each design and make our own puppet.
