

## Swallows      Spring Term      2024-2025

**Maths:** We will begin the year developing our knowledge and understanding of shape, then we will move in to understanding multiplication and division. Each day we revisit place value, addition and subtraction from the previous term's learning.

**English:** Developing sentence construction, grammar and spelling skills, we shall write non-fiction texts based on our topics. We will also look at some relatable famous series of books to cover fiction elements and develop stories from them.

**PE:** Taught by our very own Mr Mooney, mostly on Mondays and Tuesdays.

**Music:** Delivered by the multi-talented Karl on a Wednesday.

**Science:** We will work towards identifying, growing, naming, describing and observing different types of plants. We are going to take part in the RSPB's Big Bird Watch and we will record the effects of winter turning into spring.

**ICT:** Delivered on Wednesday's by Mr Quant.

**RE:** The children will be learning about how religion guides the journey of life in Christianity and Islam.

**PSHE:** Economic well-being, digital literacy and media resilience sound very current and important areas of modern life that the children will be learning about in their PSHE.

**Art/DT:** We will start Term 3 by asking, 'How can we explore colour using a variety of mark-making tools? And then testing out possibilities.

The following term we will be designing and making toy vehicles which will have a chassis, axles and wheels.

**Humanities:** We shall explore aspects of history through the topic of toys and games. We shall learn about changes over time, innovations and inventions. We will learn how to ask questions as a historian may and seek to find answers. There will be chance for us to develop a greater understanding of physical and human geography and, map skills and locations around the world though our English and topic learning too,
