

### English

We will read some traditional African tales, learn lessons from them and make our own interpretations! Of course, we can not follow the topic of Africa without exploring its rich animal, historical and geographical elements through books; and develop information writing from those.

### Science

We shall learn about habitats, food chains, life cycles and lots more about animals and plants with a particular focus on those from Africa.

### RE

The children will be asking and developing answers to the question: what does it mean to be human? They will explore this through Christian and Islamic lenses.

### Creative Arts

We shall be exploring African fruits to create our own smoothies/sorbets. We shall also look at the rich and varied arts and crafts of Africa to inspire our own creative juices. Using these to make some imaginative and observational 3D and 2D work.

# Amazing Africa

### Maths

During the last two terms of Year 2, the children will build stronger, secure foundations of number sense and the four operations. They will develop problem solving skills, apply facts with greater independence and ensure that their confidence across the subject is as high as it can be.

### PE

Mr Mooney will teach PE to the children on a Mondays and a Tuesday. We shall be going swimming on Thursdays during Term 6 (the second half of our Summer term) from the second week.

**Please ensure that PE kits fit, are named, and are in school every day.**

### Humanities

In the first half term, we shall learn about some countries and key features of this amazing continent through our Geography lessons. During the second half term, in History we shall learn about some important figures from Africa's wonderful but at times troubled history.

### PSHE

We shall learn about being healthy in body and mind!

Music lessons will be with the multi-talented Karl on Wednesdays  
Our ICT will be with Mr Quant on Wednesdays too.
