

## Maths

This term, the children will begin by investigating numbers to 20. They will focus on what the numbers are made up of before moving onto numbers to 50. We will also be looking at addition and subtraction up to 20 and looking at measurements including height and length.

## English

In English, we will be continuing working on our sentences – making sure we remember our capital letters and full stops. We will initially be using the books, 'The Great Explorer', 'The Odd Egg' and 'The Magic Bed' as our focus.

## Geography

We will be looking at the Arctic and comparing the physical and human geography with that of England. We will also look at how life might be for someone who lives in the Arctic.

## PHSE

In PHSE, we will be looking at keeping safe, both at home and when out and about. We will also begin to look at how to keep safe when online.

We will then move on to friendship and families. We will look at how to make and keep good friends and how we can be a good friend ourselves.

## PE

In PE this term, we will be focussing on invasion games to work on defence and attack and general fitness. We will also be focussing on teamwork. In inside PE we will be using the children's classic 'Alice in Wonderland' as a focus for our dance lessons

# Exploring our world

## Art

In Art, we will be looking at printing. We will look at different methods of printing and how we can use everyday items to make interesting art. In DT we will be looking at building a bug hotel to encourage wildlife into our school grounds

## History

We will be focussing this term on some of the great explorers. We will look at who they are and the places they explored. This will include exploration of the Antarctic and space.

## RE

In RE this term, we will be looking at places of worship in Christianity, Islam and Judaism. We will look at why people visit places of worship and what makes them special to different groups of people.

## ICT

This term in ICT, we are looking at using technology to create images to show data such as pictograms. We will also begin to look at understanding simple algorithms

## Science

In Science, we will be learning about animals including humans. We will be learning about our senses and what they are then will move onto different types of animals. We will be classifying animals and grouping them. We will also be continuing our learning about the seasons and observing weather as the season changes from winter to spring.

## Music

This term, the children will be looking at different styles of music. They will think about what they like about different pieces of music, learn how to find the pulse or the beat, and learn a group song to perform together using instruments.
